

Solar Energy South Africa

Henan Hanergy Thin Film Solar Power Generation

Overview

What makes Hanergy a world leader in thin-film solar technology?

In addition, Hanergy has entered into thin-film solar power plant construction agreements across the globe totaling a capacity of about 10GW. Through global technical integration and independent innovation, Hanergy has become a world leader in thin-film solar technology.

Who is Hanergy Holding Group Ltd?

Hanergy Holding Group Ltd. is a multinational clean energy company as well as the world's leading thin-film solar power company, committed to changing the world by clean power. Established in 1994, the company is headquartered in Beijing.

Who is Hanergy solar?

Hanergy is one of the largest solar manufacturers in the world, specialised in thin film. It has attached great importance to investing in thin-film solar cell research. Six R&D centers have been established by Hanergy in Beijing, Sichuan, Silicone Valley of the US, and Uppsala, Sweden.

Will Hanergy be able to build solar-powered vehicles and garments?

Hanergy's plans for solar-powered vehicles and solar-powered garments largely draw on different technology developed by the US-based developers in which it has invested. Earlier this year, Hanergy agreed to establish a joint lab with bike sharing start-up Mobike, to research the use of thin film solar on bicycles.

Is Hanergy the smartest energy company in the world?

In February 2014, Hanergy was selected by the MIT Technology Review as one of the 50 smartest companies in the world. It was the only Chinese energy company honored with the award. This form collects your name, email and content so that we can keep track of the comment placed on the website.

How much power does Hanergy have?

At present, Hanergy's total installed capacity of hydropower projects exceeds 6GW, and its total installed capacity of wind power projects is 131MW.
