.

Why am I not receiving WeChat messages notifications?

If you do not receive the WeChat messages notifications, make sure the following settings are normal. 1. Log in to WeChat > Me > Settings > Message Notification to check if it is open normally. 2.

How do I stop WeChat from showing notifications?

Just go to the app manager, choose WeChat, choose battery, and in Use Details choose "unrestricted". That is all. I can't believe that I struggle for weeks because my battery use was in "optimized" and somehow it prevented the app for showing notifications unless opened.

How to set up a WeChat subscription notification?

To set up a WeChat subscription notification, use the One-off subscription option in the WeChat Official Account backend editor. Users subscribe once and the corresponding WeChat Service Account can send one subscription notification at any time.

What happens if I Turn Off WeChat?

If you turn it off, you won't get any notifications on your home screen or on your notifications tray when a contact is ringing you with a video call. This option only applies to video calls placed on WeChat, and doesn't apply to video calls coming from other apps installed on your device.

## How do I get notifications?

To get notifications, connect to a Wi-Fi or cellular network. If you still don't get notifications for a specific app, try these steps: Make sure that the app supports notifications. Go to Settings > Notifications, select the app, and make sure that Allow Notifications is on.
