# How deep can a TV cabinet be for storage

## Overview

---

How deep should a TV stand be?

To accommodate that need, there are smaller TV stands that have compartments on them, or you could opt for one that has a larger size and a deeper depth. Smaller tables can have a depth of 14 inches or something more extensive, like 20 to 24 inches. Corner TV stands are great if you have smaller space and would want to maximize it.

What size TV stand is best for living room?

This size of the TV stand is best used in the living room. Its sizes might range from 74, 76, and 85 inches. The large TV stand is also called by other names like media consoles, TV consoles, and entertainment centers. Medium TV stands, meanwhile, might be sized between 64 and 70 inches wide.

How high should a TV stand be?

Some of our stands feature a combination of cabinets and shelves, offering the best of both worlds. When viewing your TV from the sofa, you want it to be at a comfortable height to prevent neck or eye strain. As a general rule, the centre of the TV should be at or slightly below eye level. You'll also need to take some other factors into account.

What size is a TV stand?

Its sizes might range from 74, 76, and 85 inches. The large TV stand is also called by other names like media consoles, TV consoles, and entertainment centers. Medium TV stands, meanwhile, might be sized between 64 and 70 inches wide. This is the type of TV stand more appropriate for use in the bedroom and living room.

How do I choose a TV storage unit?

Selecting the perfect TV storage unit is about finding a balance between form and function. Consider the size of your room and the dimensions of your

television when browsing for TV wall units. A unit that's too large can overwhelm a small space, while one that's too small may not provide the impact or utility you're after.

How long should a TV stand be?

The general rule is that a stand for your TV should be 1" to 2" longer on each side than the television's width. In addition, make sure there is adequate room in front and behind the set. Consider the amount of space needed in front for accessories such as TV remotes and soundbar speakers.
