How often should solar power generation be maintained

Overview

How often should solar panels be serviced?

Solar panels should be professionally serviced every 5-10 years. Solar panels can last roughly 30 years with little-to-no maintenance, which means they're a great investment and won't cost you much after the initial outlay.

Do solar panels need maintenance?

Solar panels have no moving parts, which makes them relatively low maintenance. But if you want to reduce solar panel costs and maintenance over time, you'll need to look after them. Here are a few things that you should do to keep your panels in tip-top condition:.

How long do solar panels last?

A good solar company will give you a warranty of between 15 and 25 years and guarantee that your panels' energy production remains at 80% or above for that entire time. So, are solar panels hard to maintain?

.

Do solar panels need to be cleaned?

Be sure to clean the panels early in the morning before they get too hot from the sun; cold water and hot panels do not mix! Solar panel maintenance and cleaning is not covered under panel warranties, but if your solar panels are damaged, they will usually be covered. Do solar panels need to be maintained?

.

Do solar panels need maintenance in the UK?

Solar panels in the UK do not typically need extra maintenance, since the UK climate is generally favourable to them. According to manufacturers'

standards, 25°C is the optimum temperature for solar panels to operate – so the UK summertime is the prime time for your panels.

How do I maintain my solar panels?

All in all, maintaining your solar panels is pretty easy. If you notice dust, debris or snow piled up, a quick clean will ensure that your panels operate effectively. Additionally, be sure the panels you get come with a good warranty so that if your panels do break, they get replaced.
