# How to buy Canadian Solar photovoltaic panels

## Overview

---

The Dymond panel is also known as Canadian Solar's double-glass module and is one of their most recent new product launches. Thanks to the innovative use of heat-strengthened glass instead of the traditional polymer back sheet, the Dymond doesn't need grounding as there is no metal frame. Canadian Solar offers some.

Another new product from the developers at Canadian Solar, SuperPower panels feature Mono-PERC cells which are designed to give.

These panels are purposely built to withstand the stresses and strains of harsh environments such as snowfall and high winds, salt-mist and sandstorms. This robust panel also features 72 solar cells for a high solar system.

An excellent all-rounder and a popular choice, Canadian Solar's Standard panels are used in homes, commercial properties and utility-scale projects.

The perfect solution for the majority of residential homes, the Canadian Solar All-Black panel has 60 solar cells and produces a high energy.
