How to install photovoltaic panel packaging bags

Overview

Do solar panels need packaging?

There are PV manufacturers that reduce their costs to a minimum when it comes to the packaging. There are known cases of pallets of solar panels that were simply covered in plastic. There are better and safer ways to transport your panels. For more details read our feature article on solar panel packaging.

How do I choose the best solar panel packaging?

Consider the following factors when choosing solar panel packaging:
Durability: Opt for packaging materials that are strong, sturdy, and capable of withstanding external forces. Reinforced cardboard or corrugated boxes are commonly used for solar panel packaging due to their durability and resistance to compression.

How do you pack a solar panel for shipping?

To pack a solar panel for shipping, it is essential to follow these steps: Ensure the panel is clean and free from any debris or loose components. Place the panel in a sturdy and appropriately sized packaging box or crate. Provide cushioning around the panel using foam inserts, bubble wrap, or custom-fit padding to protect it from impacts.

How to install PV modules in hot and humid environment?

PV modules install under hot and humid weather condition. PV modules installation site is under long-term humid environment such as water floating application. To reduce the risk of PID, on the modules DC connection site, it is recommended to connect the negative to ground.

Can you walk on a LONGi Solar PV module?

DO NOT stand or walk on PV modules. Prior to beginning installation, review the Installation Manual for LONGi Solar PV Modules. Do not carry a module

alone; always use two people to lift and carry. Do not drill holes in the frame of the module.

How do I unpack a module?

Put packaging carton in the ventilated, water-proof and dry places before unpacking modules. Follow unpacking instructions when opening packaging carton. Carrying modules with the junction box or wires are strictly forbidden. Do not stand or walk on modules. To avoid glass damage, heavy objects are not allowed on modules.
