Hunter Solar Sync Sensor This sensor automatically adjusts controller run times daily based on local climate conditions to reduce water usage and improve plant health. Solar Sync Sensors can only be used with compatible Hunter controllers look for the "compatible with Solar Sync" indicator Features Automatically adjusts irrigation duration

Christopher Luxon, Dalton

Tagelagi announce \$20m Niue energy ...

The project will bring Niue's renewable generation to 80 percent. New Zealand will also commit \$2 million to the Niue Ocean Wide Trust, which aims to develop a blue economy and ensure long-term ocean conservation and climate resilience.

The Government of Niue , Power Outage notification for Niue

Similarly, Niue's largest solar array (near the hospital) requires some inverters to be replaced. These are on-island, and replacement work will be carried out in the next few weeks. At this point, we will be able to bring a sizeable portion of solar back on the grid and reduce diesel consumption from running the generators full time.

[Hynertech Co., Ltd](#)

21 st Century is an era of renewable energies, including wind power, solar energy, tidal power and geothermal energy, etc. The renewables have been undergoing rapid development in recent years and, along with fossil energies, have gradually come to the central stage of the global energy supply market. Nevertheless, the uneven geographical

ICC2

ICC2 is a value-packed, light-to-mid size commercial irrigation controller that delivers more than you expect, just like its famous predecessor. It is designed to control larger

projects (up to 54 stations) and offers the water savings you expect from a Hunter controller. ICC2 offers control for 3 different types of output connections, up to 54 stations plus a master valve.

SOLAR PANEL

SOLAR ROTORS MP ROTATOR SPRAYS VALVES CONTROLLERS SENSORS CENTRAL CONTROLS MICRO PANEL Power Your XC Hybrid or Node Controller by Harnessing Solar Energy. Hunter's Solar Panel provides maintenance-free operation that harnesses the sun's energy to power controllers 24 hours a day, 7 days a week for years on end.

NODE-BT

Open the Solar Panel cover and attach the Solar Panel over the ball mount. Make sure the red and black wires are coming through the ball mount into the Solar Panel housing and have enough slack to reach the (+) and (-) terminals. Position the Solar Panel in the desired location and

tighten three screws around the ball mount to secure it in place.

Christopher Luxon, Dalton Tagelagi announce \$20m ...

New Zealand plans to invest \$20.5 million into a new, large-scale, renewable energy project in Niue, reducing the island nation's reliance on diesel. The project will bring Niue's renewable generation to 80 percent.
