

## Solar Energy South Africa

# Inner Mongolia Power Plant Wind Power Foundation

## Overview

---

How much wind power does North China's Inner Mongolia generate?

Wind power generation by large-scale enterprises in North China's Inner Mongolia autonomous region reached 101.99 billion kWh in 2022, up 8.8 year-on-year, according to the regional bureau of statistics.

What is the wind power industry in Inner Mongolia?

In general speaking, wind power industry in Inner Mongolia have a rapid development speed and is on the domestic leading level from the view of installed capacity and power generation.

What is the status quo of wind power development in Inner Mongolia?

According to the status quo analysis of Inner Mongolia wind power development above, now the prominent matter of wind power development in Inner Mongolia are wind power unit-operation hours and integration rate is on a low side.

Is Inner Mongolia a good place for solar energy?

The total prospective capacity from coal power plants takes up almost 7% of the national total, ranking as the third largest province with coal projects in the pipeline. Meanwhile, Inner Mongolia boasts tremendous potential for solar and wind energy. Its deserts and sandy lands make ideal locations for solar and onshore wind installations.

How to promote wind power integration in Inner Mongolia?

Places like Inner Mongolia region without abundant water resources can build pumped storage power station to promote wind power integration . Meanwhile, encouraging more thermal power units to participant in load shifting of wind power integration are required. The specific incentive measures will be analyzed next in mechanism level. 4.1.2.2.

Where is Mongolia's wind power located?

The south of Inner Mongolia is close to Beijing and Tianjin while the north is adjacent to Mongolia and Russian. In June 2012, wind power integration installed capacity reached at 52,580 MW exceeding that in United States and becoming first in world.

## Inner Mongolia Power Plant Wind Power Foundation
