

Solar Energy South Africa

Install photovoltaic panels on the roof of a rental property

**Efficient
Higher Revenue**

- Max. Efficiency 97.5%
- Max. PV Input Voltage 600V
- 150% Peak Output Power
- 2 MPP Trackers, 150% DC Input Oversizing
- Max. PV Input Current 16A, Compatible with High Power Modules

**Intelligent
Simple O&M**

- IP66 Protection Degree: support outdoor installation
- Smart I-V Curve Diagnosis Function: locate PV string faults accurately and automatically detect faults
- DC & AC Type II SPD: prevent lightning damage
- Battery Reverse Connection Protection

**Flexible
Abundant Configuration**

- Plug & Play, EPS Switching Under 10ms
- Compatible with Lead-acid and Lithium Batteries
- Max. 6 units Inverters Parallel
- AFCI Function (Optional): when an arc-fault is detected the inverter immediately stops operation

Overview

Can a landlord install solar panels on a rental property?

Before proceeding with solar panel installations, landlords should assess the feasibility of their rental properties. Factors such as roof condition, orientation, and shading need to be considered. Consulting with solar panel experts or contractors can provide valuable insights into the best options.

What is a solar panel rent-a-roof scheme?

The Rent-a-Roof scheme lets people who can't otherwise afford solar panels gain access to them, through installers who will setup solar panels on roofs for reduced prices. Installers can then sell any excess electricity generated back to the grid.

How to install solar panels?

Make space for the solar panel accessories (solar inverter, cables and solar batteries, if desired), for instance in a plant room 4. Plan a day for installation 5. Erect the scaffolding (this can be done by your supplier or by a company you organise) 6. The solar panel mounts will be installed 7. The professionals will install the solar panels 8.

Are solar panels safe for rental properties?

By selecting a reputable solar installation company and implementing a proactive maintenance and inspection plan, you can ensure your solar panel system remains efficient and safe throughout its lifecycle on your rental property. Solar panels are generally considered safe for use in rental properties.

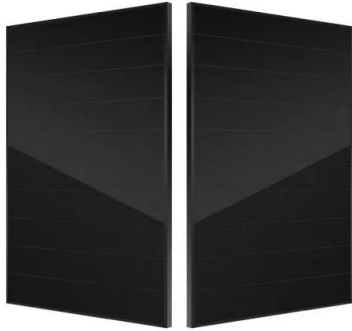

Can solar panels be installed on a roof?

"The solar panels will need to be mounted on the roof by installers who understand roofing and will need some scaffold decks to safely get the panels to the roof.

Are solar panels paying rent for your roof?

Technically, they're not paying rent for your roof, because you'll get the benefit of powering your home using solar power instead of grid electricity. They'll make money from the electricity you don't use. All excess electricity generated is sold back to the grid via the Smart Export Guarantee (SEG) scheme.
