Is Canadian Solar Power Good

Overview

Canadian Solar Incorporated is one of the 5 largest solar module manufacturers in the world; as of late 2022, they had an annual production capacity of about 31 GW. The company's corporate headquarters is located in Guelph, Ontario, and they maintain a 500 MW manufacturing facility also in Canada. That said, the vast.

As you might imagine with a company that has 20 years of solar manufacturing under its belt, Canadian Solar offers a large number of products. The bread-and-butter of the company is its HiKu.

On top of being great quality panels, Canadian's residential solar panels come in at a great price too. Costing an average of \$2.60 per watt, expect to spend about \$15,600 for a typical 6 kW solar system using these panels. Keep.

Canadian Solar makes excellent products and backs them up with warranties that meet or exceed the industry standard. The prices are competitive, and the company has a relatively long.
