

Solar Energy South Africa

Is photovoltaic panel production exempt from value-added tax

Overview

A zero-rate of VAT on the installation of energy-saving materials (ESMs), including solar panels, in residential accommodation, was introduced on 1 April 2022. What is the current VAT treatment on the installation of energy-saving materials?

This briefing explains the current VAT treatment on the installation of energy-saving materials in the UK, analyses recent changes, and outlines recent developments. A zero-rate of VAT on the installation of energy-saving materials (ESMs), including solar panels, in residential accommodation, was introduced on 1 April 2022.

Is there a zero-rate VAT on solar panels?

A zero-rate of VAT on the installation of energy-saving materials (ESMs), including solar panels, in residential accommodation, was introduced on 1 April 2022. At the time, it only applied to England, Scotland, and Wales. Following a new agreement between the UK and the EU, the zero-rating was also implemented in Northern Ireland on 1 May 2023.

Are solar panels tax deductible in the UK?

According to the UK government's list of Energy Saving Measures (ESMs), most solar photovoltaic (PV) panels installed on residential properties in Scotland, England and Wales (plus Northern Ireland, as of 1 May 2023) are exempt from VAT, meaning there's no VAT included in the purchase and installation costs.

What is the VAT exemption on solar panels & battery installations?

As of February 1, 2024, a significant change has illuminated the realm of sustainable energy in the UK—the VAT exemption on solar panel and battery installations. This transformative shift not only promotes the adoption of clean energy solutions, but also brings noteworthy financial benefits to both residential and commercial consumers.

Are solar thermal and PV systems subject to VAT?

Solar thermal and PV systems are included on the list of ESMs. Their supply and installation are now subject to 0% VAT in Great Britain. In Northern Ireland, the previous rules remain in force. This means that solar is subject to 20% VAT unless a reduced rate of 5% applies.

Are solar and energy storage installations subject to VAT?

All solar and energy storage installations, including maintenance to existing sites, should be subject to 0% VAT. This should include residential energy storage when installed as a standalone measure.
