# JA Solar Panel Quality

## Overview

---

Are JA Solar's solar panels any good?

Efficiency Taken as a whole, JA solar panels have an average efficiency of 21.78%. This is more than the industry average of 20%, and not far off the 22% efficiency that top-tier solar panels operate at. Power In terms of power, JA solar panels are on the higher end of the scale. Warranty Product warranty is JA solar panels' weakest point. Is JA Solar a good solar panel company?

In terms of solar panel options, JA Solar has a number of variations for the customer to choose from. With the ability to get different power outputs, solar cell counts, and solar cells types, JA Solar offers a great level of flexibility that earns them a spot as a top solar panel on our reviews.

How efficient are JA Solar panels?

From the above tables, you can see that the power output and efficiency of JA Solar's modules are very comparable with the majority of other solar panels on the market. It is very common to see panels around 15-16% efficiency on the low end and 18-19% on the high end, although some solar panels can reach an efficiency of over 21%.

How much power does a JA Solar panel produce?

Power output of most home solar panels in the UK is 250W to 400W. JA solar panels are either at the higher end of this range or exceed it. For example, JAM60S20/MR solar panels offer 21 per cent efficiency with a peak power output of 390W, at a lower price than similar solar panels from many other manufacturers.

How reliable is JA Solar?

Since 2017, JA Solar has consistently scored in the 'Top performer' category of the DNV GL/PVEL PV Module Reliability Scorecard report. DNV GL is a leading authority of independent energy experts, and PVEL conducts independent PV testing. This annual report identifies 20 high-performing solar panel

manufacturers.

How much does a JA Solar jam60s20 cost?

The JA Solar JAM60S20 is one of the most cost-effective panels on the market, with a price range of £100 to £206 per panel. Based on our findings, a 4 kW system will cost around £6,000. We compared the JAM60S20 solar panels with two other brands to show the vast difference in price.

Who are JA Solar panels?

PVEL (DNV-GL) is one of the world's leading solar module testing services based in Germany and every year the company produces the annual PV Module Reliability Scorecard Report. Over the last 5 years, JA solar panels have consistently scored in the 'Top performer' category among 20+ of the world's leading solar brands tested.
