- Intergrated 20/40ft container solution

Overview

A typical three-bedroom house with a 4.5kW system could save up to £871 per year at the current energy prices, allowing homeowners to break even in approximately eight years. According to the Government's Rooftop Solar Behavioural report 96 per cent of responders who were planning a solar installation anticipated.

Depending on the size of your property and your household's electricity needs, a solar panel installation can cost between £8,500 and £9,100. However, through energy savings and SEG incentives, solar panels can save you many.
