Latvia solar place

Overview

Will there be a solar panel Park in Latvia?

Work has already begun on the assembly of the panel structure to prepare for the laying of the panels," Bērziņš said. Merito, which is the owner of Kalkūnes SES, will have eight such solar panel parks in Latvia, said Māris Plūme, board member of the fund's cooperation partner, the company "Saules Energy" (Solar Energy).

Does Latvia have solar energy?

So far, however, the development of solar energy in the country has been rather limited. According to Latvia's grid-operator Sadales tīkls AS, which is a subsidiary of Latvenergo, there was just 1.3 MW of renewable energy power installed under net metering at the end of 2016.

How much electricity will the Daugavpils solar power plant produce?

Annually, the solar power plant will produce 13,500 megawatt-hours of electricity, which will be enough to fully supply at least 6,500 households in the Daugavpils area. "We are located in Kalkūne parish, we will start work here, we will build a solar panel park.
