# Liechtenstein ceto transit gate energy sphere dispenser

## Overview

---

Is there a secure container at Ceto TG?

Hi Pilots, I'm confused with one of the secure containers at the Ceto TG. When you enter Union through the gate there are two massive asteroids on your left. The first one has a small base in it which contains a secure container and an energy sphere socket.

Where is Ceto transit gate?

Ceto Transit Gate is a site in the EMP Fields region of the Union system in Everspace 2. This location is the first Union location visited - it has several G&B structures including cargo transit processing, and has a Jump Gate to the Ceto system. Okkar patrols are present here. Located inside a radiation filled asteroid on the 'bottom' of the map.

Where is the second energy sphere dispenser?

There is a second energy sphere dispenser located near those energy sockets. It's hidden in a literal hole in the ground right next to one of the sockets. How the hell did you even find this Post after 11 Months?

XD Man, if two months freaked you out, this is gonna blow your mind. Yea if 11 months freaked you out, I'm with Citizenking.
