The Fengning Pumped Storage Power Station (: 丰宁抽水蓄能电站) is a power station about 145 km (90 mi) northwest of in of , China. Construction on the power station began in June 2013 and the first generator was commissioned in 2019, the last in 2021. Project cost was US\$1.87 billion. On 1 April 2014 was awarded the main contract to build the po.

Where is Fengning pumped storage power station located?

The Fengning pumped storage hydropower plant in Hebei province (courtesy: State Grid Corporation of China) China has set a new global benchmark in the global hydropower sector with the completion of the Fengning Pumped Storage Power Station, the largest of its kind in the world.

What is Fengning power station?

It's a 3.6-gigawatt system in the Hebei province. The name of the facility is the Fengning Pumped Storage Power Station. It is expected to provide 6612 gigawatt-hours of energy storage a year (~18 GWh/day).

How big is China's Fengning pumped storage power station?

China has set a new global benchmark in the global hydropower sector with the completion of the Fengning Pumped Storage Power Station, the largest of its kind in the world. Located in Hebei province, this cutting-edge facility has a

total installed capacity of 3.6 GW and is operated by the State Grid Corporation of China (SGCC).

Is China's Fengning power station the world's largest hydro power plant?

China has set a new global benchmark in the global hydropower sector with the completion of the Fengning Pumped Storage Power Station, the largest of its kind in the world. China's Fengning Station: World's Largest Pumped Hydro Power Plant Sets New Global Benchmark.

What is Fengning pumped storage power plant?

The Fengning pumped storage hydroelectric facility will be connected with the Beijing-Tianjin-North Hebei grid. The 3.6GW Fengning pumped storage power station under construction in the Hebei Province of China will be the world's biggest pumped-storage hydroelectric power plant.

Where is China's largest pumped storage power station located?

Located in Fengning County, Chengde of North China's Hebei Province, the pumped storage power station is installed with twelve 300,000-kilowatt generator units, giving it an installed capacity of 3.6 million kW, the world's largest.
