Genere paquetes de permisos solares en minutos , Lyra Solar

Software de paquete de permisos solares en línea para instaladores residenciales. Diseñe un sistema fotovoltaico y genere un paquete completo de permisos fotovoltaicos por tan solo \$49. Aprobación de AHJ o le devolvemos su dinero.

How is Lyra different from other solar design apps?

Lyra is the only solar permit package generation tool on the market that allows you to design a complete, fully-engineered, code-compliant, permit-ready design and generate a permit package. Where most other solar design apps focus on preliminary designs for use in sales materials and proposals, Lyra goes much deeper, all the way down to

The Dawn of Lyra -- The Future

of PV System Design and Permitting

The residential solar sector has become a quickly growing global industry. Solar isn't yet on every home, but it's gaining traction. According to SEIA's SolarMarket Insight Report, "In Q1 2019, the U.S. solar market surpassed 2 million installations - just three years after the market surpassed the 1 million installation milestone
