Guinea

Guinea - Mining, Agriculture, Oil: Guinea has from one-third to one-half of the world's known reserves of bauxite (the principal ore of aluminum), plus significant reserves of high-grade iron ore at Mount Nimba and the Simandou Mountains. Alluvial gold is taken from the Niger and its tributaries, and diamond production is substantial and largely of gem-quality stones.

Portrait of Renewable Energy sector In Guinea Bissau

Data collection from key actors in the renewable energy sector in Guinea Bissau
 o Type of renewable energies available in Guinea Bissau
 o Details on past, on-going and future projects in RE area through a form o Interviews
 Analyses of the collected data: type of renewable energy sources available in GB,

- 50KW/100KWH
- HIGHER POWER OUTPUT IN OFF-GRID MODE
- CONVENIENT OPERATION & MAINTENANCE
- PRE-WIRED

Noble Energy makes oil discovery off Equatorial Guinea: minister

Noble Energy has made a new discovery in Block 1 offshore Equatorial Guinea, with the U.S. company expecting to produce new oil by tapping into existing infrastructure by October, the oil minister

Will Equatorial Guinea rescue its dwindling energy industry?

Although natural gas plays a larger role in the country's energy mix (82 percent compared to 12 percent for oil) and electricity mix (67 percent versus 0.6 percent for oil), the local gas market is also small. That allows Equatorial Guinea to export the surplus in the form of liquefied natural gas (LNG) through its only liquefaction plant (operated by the company EG ...
