In comparison to the Burkina Faso project, the Mali projects should cost around the same range. "We have set a ceiling price of 65 FCFA / kWh. Without storage, the price was around 40 FCFA/kWh, but storage is very expensive, so we are going to install storage capacities so that the price does not exceed 65 FCFA per kWh," remarked Berthe.

With recent drops in PV-panel prices, also more and more PV generated electricity is becoming available, ranging from pico PV devices to several 100's kW PV power plants For information about the first grid connected solar plant in mali, see [First Grid-connected Solar Power Plant in Mali](#).
