### System Topology

## Technical Service Center - Megatech Renewable Energy

A key component of Megatech's business is electrification. Renewable Energy is complimentary to this when looking at the larger Southern African landscape as well as the local landscape in Namibia. A large portion of Namibia does not have access to the electrical grid, creating need for decentralized systems (including storage).

## Namibia: MegaTech Advances Renewable Energy Penetration

Namibia has some of the world's best solar irradiation resources, making it an ideal location for solar installations and driving increased demand for renewable energy products such as solar panels, batteries and inverters. This prompted us to create specialized "green" stores dedicated to renewable energy products.
