About

In 2013 I returned to Barbados and founded Solar Genesis Inc. which focuses on design, consulting and project development. It quickly became apparent that for solar PV to make a significant difference in Barbados, customers needed to be better informed about the technology. As a result SolarBarbados was born, to increase the solar PV

[Power Purchase Agreement](#)

Miale Solar offers businesses a Power Purchase Agreement (PPA) that enables the adoption of solar energy with zero upfront costs. Under this agreement, we handle the installation, operation, and maintenance of the solar infrastructure, while your business only pays for the power generated. This structure minimizes financial risks and provides

Blog

Miale Solar has been instrumental in enabling communities, businesses, and institutions to become less dependent on grid electricity with its creative solar solutions. In 2024, Miale installed a 402 kWp grid-tied solar PV system at Home Tena Quarry to lessen reliance on costly

diesel generators and the unstable grid.

Why Kilifi Must Embrace Solar Water Pumps

Following Miale Solar's installation of a 1.23 MWp grid-tied solar PV system, the Naivasha-based utility company now saves not less than Ksh21.6 million every year, with energy costs brought down to the neighborhoods of 20% during the Power Purchase Agreement (PPA) period. After the PPA tenure, Naivawasco's savings are projected to rise to

[Kenyan flower farms Archives](#)

While these farms are just now starting to adopt the idea, other countries have boldly integrated solar energy into their agricultural sectors, offering valuable insights into Kenya's floriculture industry -- a strong pillar of the national economy. According to data from the Kenya Flower Council, the industry makes up about 1.3% of Kenya
