Localization is critical to reaching sustainable energy for all

One thing is clear, though - to achieve universal energy access using DRE, our efforts need to be focused on localization of energy solutions. By this, we mean that energy solutions need to be locally embedded, and development support should focus on the local enabling environment, localization of finance, and ensuring that local businesses and

Montenegro's Renewable Energy Law paves the way for

The first auctions are expected in 2025, opening the door for new investments and enabling better integration of renewable sources into Montenegro's energy system. The law also includes the issuance of guarantees of origin, a
