What is the different between KVA and KW in solar power system...

So if you buy our solar power system 10kw, it is equal to 14kva solar power system you buy from other supplier. kW is the unit of active power. kVA is the unit of apparent power. Apparent power includes active power and reactive power. The relationship is: $\text{apparent power}^2 = \text{active power}^2 + \text{reactive power}^2$.
