Coral Reef Benthic Video Surveys Facilitate Long-Term

This study describes a step-by-step process used to design an effective benthic video survey component of the Commonwealth of the Northern Mariana Islands long-term monitoring program. Documenting abundance of major benthic groups at relatively large spatial scales, at the appropriate localities, can empower monitoring programs with the capacity to detect changes ...

Northern Mariana Islands , Powertec Information Portal

The Northern Mariana Islands, a US commonwealth situated in the Western Pacific, presents unique challenges for technology and telecommunications due to its remote geography and sparse population. Spread over 14 islands and with a total population around 49,000, the distribution of residents is highly uneven, with the majority located on the island of Saipan.

Our Lifepo4 batteries can be connected in parallel and in series for larger capacity and voltage.
