Northern Mariana Islands , Powertec Information Portal

The Northern Mariana Islands, a US commonwealth situated in the Western Pacific, presents unique challenges for technology and telecommunications due to its remote geography and sparse population. Spread over 14 islands and with a total population around 49,000, the distribution of residents is highly uneven, with the majority located on the island of Saipan.

Renewable Energy

Now renewables are overtaking fossil fuels, with wind and solar energy becoming cheaper and more competitive every year. Growth in renewable energy will further accelerate as electric vehicles become less expensive than traditional automobiles. Understanding the implications of the energy transition will prepare us for the many changes ahead.

Solar Construction Company

Our solar expertise is demonstrated in the reliability of our system design and construction, verified solar production and optimized system integration. Our integration team has been named one of the top 30 EPC contractors in the U.S. solar industry (Solar Power World 2021) and top 100 in total megawatts installed.
