Evyon repurposes used EV batteries into eco-friendly, high-quality battery systems. "We are turning a multimillion tonne waste problem into a

multibillion euro opportunity, while doing our part to save the planet and achieve the Sustainable Development Goals," says Jørgen Erdal, co-founder and CEO of Evyon.

Solar SafeGuard

For best results, charge the solar top of the Solar SafeGuard for a full 8 hours of sun before placing into the ground. Place one unit every 100ft for the best coverage. The size of your yard will determine how many Solar SafeGuard units you will need. Do not place units where water tends to pool and always remove them when mowing your lawn.

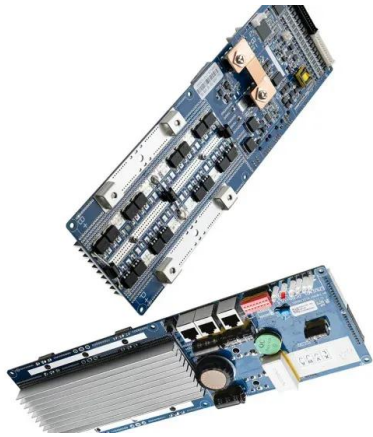

Business Norway
