Palau School of Trevally, Photo Credit: The Ocean Agency/Ocean Image Bank A 'First of its Kind' MPA The Palau National Marine Sanctuary (PNMS), enacted by the Palau National Congress in 2015, is one of the largest marine protected areas (MPA) in the world. It was the first MPA of its kind, protecting 80% of a...

Energy Savings Performance Contracts (ESPCs)

Contracts (ESPCs) Energy savings performance contracts (ESPCs) allow federal agencies to implement energy projects and infrastructure improvements with no up-front capital costs, minimizing the need for Congressional appropriations. An ESPC is a collaboration between a federal agency and an energy service company (ESCO). The ESCO is a private-

Request for Proposal to Develop Ecotourism Plan for Four ...

Palau Protected Areas Network (PAN) was established by the Republic of Palau Public Law RPPL 6-39 (PAN Act) that was signed into law in November 2003. The PAN Act created a nationwide system to support the state's efforts in protecting ...

ESPC Projects: Benefits for Federal Agencies

The Benefits of ESPCs. Using an ESPC project to enhance sustainability at a facility can have the following advantages: Lower energy and water bills. Improved public perception. Healthier work environment. Reduced carbon footprint. Compliance with federal energy and water reduction mandates. Reduced exposure to volatile utility rates

Federal Project Executives for ESPC, UESC, and ESPC ENABLE Projects

Providing an initial briefing to educate staff and management about ESPCs, UESCs, and ESPC ENABLE Helping to determine whether an ESPC, UESC, or ESPC ENABLE project is feasible Helping to gain management support for an ESPC project

Best Practices for ESPC Portfolio Review

In federal ESPCs, guaranteed energy and energy-related cost savings are established on an annual basis. Measurement and Verification Agencies may use this document in addition to all of

FEMP's ESPC resources in awarding and maintaining high-quality and high-value ESPC task orders (TOs). FEMP ESPC guidance, contract document templates and

Energy Savings Performance Contracting (ESPC) , NASEO

The process of measuring actual energy (and sometimes water and other non-energy) savings after project installation, known as measurement and verification (M&V), is an essential component of ESPCs. Performance Contracting National Resource Center (PCNRC) A hub for all U.S. Department of Energy best practice resources and solutions for ESPCs.

DOE-FEMP Comprehensive participants with an ESPC ...

Why is FEMP so involved in ESPCs? FEMP's mission is to help agencies manage their energy use and meet energy goals. Congress authorized

agencies to use ESPCs to address the fact that many agencies have insufficient appropriations to make energy improvements, and tasked FEMP with establishing the ESPC program to help agencies use ESPCs.

ENERGY STORAGE SYSTEM

Product Model
HJ-ESS-215A(100KW/215KWh)
HJ-ESS-115A(50KW 115KWh)

Dimensions
1600*1280*2200mm
1600*1200*2000mm

Rated Battery Capacity
215KWH/115KWH

Battery Cooling Method
Air Cooled/Liquid Cooled

About Federal Energy Savings Performance Contracts

DOE's ESPC ENABLE program streamlines ESPCs especially for small sites (typically smaller than 200,000 square feet) that need basic energy conservation measures (ECMs). ENABLE ESPCs offer tools and templates that can allow agencies to award a task order in as few as 12 weeks. These ESPCs are procured through the General Services Administration Supply ...

MARINE FISHERIES OF PALAU 1950-2008: TOTAL ...

Palau is long, with the earliest archaeological findings in Palau dating back over 2400 years (Clark, 2005). In recent human history, Palau has

been successively colonized and under external stewardship by different states; Palau was ruled by Spain in the 1880s, Germany from 1899-1913 and Japan from 1914-1944.

Performance Contracting National Resource Center

The Performance Contracting National Resource Center (PCNRC) is a hub for all of the U.S. Department of Energy's (DOE) best practice resources and solutions for energy savings performance contracts (ESPCs). ESPCs are a key mechanism for facility owners to implement projects that provide energy and water cost savings without requiring upfront capital funding to ...
