Overview

What is risesun MGL?

RiseSun MGL is a high-tech enterprise focused in research and industrialization of new energy vehicle Li-ion power battery, energy storage Li-ion battery and key materials of Li-ion battery. MGL takes the lead in the world in scale up manufacture and marketization of Mn-based Li-ion battery.

What makes MGL a leader in the manufacturing industry?

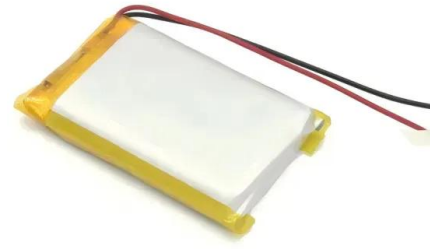

It is the top honor in the manufacturing industry pyramid, and its single champion products represent the highest level of development and the strongest market strength in the sub-sectors of global manufacturing. MGL has been deeply involved in the field of power batteries for more than two decades.

Why is MGL a pioneer in aviation power battery industry?

As the only power battery enterprise that enters aviation field and obtains navigate certificate, MGL breaks up the monopoly of foreign brands in aviation power battery. MGL gets authorized by China State Railway Group Co.,Ltd in 2018 and exports systems to German railway. It represents the pioneering achievement of MGL in railway traffic area.

SANY banks on hybrid mining truck demand with ...

RiseSun MGL stated in 2023 on the SET240S: "The battery box has been verified by heavy-duty mining trucks under actual road conditions, and the product is safe and reliable. With the three-engine system, the maximum ...

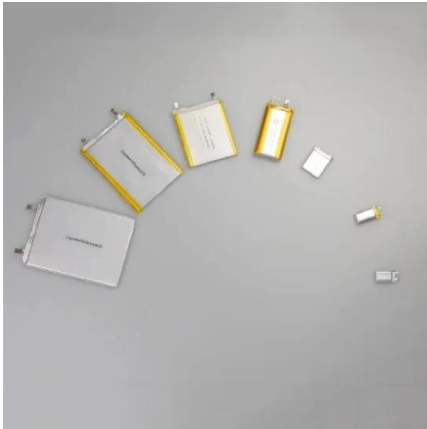

China MGL constructs power battery plant in Nanjing

RiseSun MGL has capacity of 3GWh/yr in the first phase of its power battery production base in Tianjin, with its second phase of 6GWh/yr under construction. Plans for a third phase of 6GWh/yr are underway. Strong demand from China's fast-growing new energy vehicle (NEV) sector has prompted power battery producers to ramp up production over the

SANY banks on hybrid mining truck demand with SET150S and ...

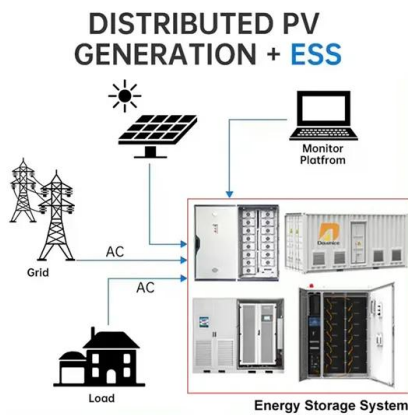

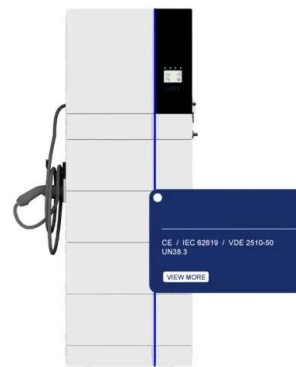

RiseSun MGL stated in 2023 on the SET240S: "The battery box has been verified by heavy-duty mining trucks under actual road conditions, and the product is safe and reliable. With the

three-engine system, the maximum power of the vehicle can reach 2,091 kW, which is 12% higher than similar products on the market.
