Overview

Does the ADB support Papua New Guinea's energy sector?

The ADB has been a longstanding supporter of investment in PNG's energy sector. Christian Lohberger, President of the Solar Association of PNG, updates Business Advantage PNG on all matters solar and why the future of Papua New Guinea's renewables sector looks bright.

Who regulates the electricity industry in PNG?

The electricity industry and power pricing is currently regulated by the Independent Consumer and Competition Commission (ICCC). PNG's National Energy Policy anticipates the eventual establishment of separate Energy Regulatory Commission. With the advent of the PNG LNG project in 2014, PNG began exporting LNG.

Who owns PNG Power Ltd?

State-owned PNG Power Ltd is the major power utility in PNG, with responsibility for power generation, transmission, distribution and retailing. It is one of a number of state-owned companies owned by the state-owned umbrella company, Kumul Consolidated Holdings.

How much electricity does PNG have?

According to the World Bank as of 2022, about 19% of PNG's population has access to electricity, but grid penetration in provincial capitals is less than 14%. PNG's per capita consumption ratio of electricity is also one of the lowest in the world.

Will Papua New Guinea get electricity by 2030?

The project to connect 70 per cent of Papua New Guinea's population to electricity by 2030 is making progress, according to senior officials from the United States-funded component, the USAID-PNG Electrification Partnership. Filed Under: Doing Business in Papua New Guinea, Sector profiles.

What new hydropower projects are being developed in PNG?

There are several new hydropower projects under consideration, including the 50MW Edevu project (which should come online in 2022), the long-considered Naoro Brown hydropower project and PNG Forest Products' Baime hydropower project (12MW due in 2022). There is further potential to develop hydropower in PNG.
