Who are contact solar?

Here at Contact Solar we provide domestic solar, commercial solar and battery storage solutions. Our solar panel installers cover a number of areas including Ashford and Medway Town in Kent, Essex, Leicester, Cambridge, Oxfordshire, Cheshire, Lancashire, Yorkshire and Cumbria.

Who is solar panels UK?

We are an exemplary solar panel company specialising in UK Solar Panels and for solar, and our focus on customer relations is an utmost priority. From the no-pressure sales approach to an in-house technical support team, we provide the best advice for all customers, new or existing.

Are solar PV panels a good investment?

With a need for UK households to shift to greener more energy efficient systems, alternatives such as solar PV panels are becoming commonplace. Installing a solar PV system is a great investment for those whose property is suitable for this kind of set up.

What are battery back-up and storage systems for solar PV installations?

Battery back-up and storage systems for solar PV installations make it possible to store any surplus solar energy produced during the day. The technology allows you to make use of the stored energy whenever there's a demand for power – day or night, rain or shine.

How do solar photovoltaic panels work?

Solar photovoltaic panels transform sunlight into usable electricity. When the sunlight hits, the solar panels create an electric field. The electricity generated will then go to an inverter, where the DC electricity will be transformed to the usable AC electricity for your property.
