Photovoltaic panel portable charging

Overview

What is a portable solar charger?

The main use for a portable solar charger is to power your device when you're away from power outlets. We took this into account when we chose to weight direct solar charging speed the heaviest in our testing metrics. It's also no surprise that some of our highest-scoring panels in this metric were chargers with the largest capacity.

What is a portable solar panel?

A portable solar panel generally has fewer solar cells, which translates to less power converted from sunlight to electrical energy or watts. The overall scores for each portable panel we tested are shown in the chart below. Portable solar chargers balance packability and charging capacity.

Are portable solar chargers good for camping?

Portable solar chargers balance packability and charging capacity. Solar panels for camping are generally larger than portable models. They also have a higher capacity to convert sunlight into energy. The chart below shows the overall score for each model we tested.

Are portable solar chargers a viable way to provide electricity outdoors?

Thanks to efficiency advances and cost decreases in solar cells, portable solar chargers are finally proving to be a viable means of providing electricity outdoors. A backcountry user might carry a smartphone, GoPros, headlamp, tablet, camera, headphones, and PLB or GPS devices.

Can a solar panel Charger charge multiple devices simultaneously?

Most mobile solar charging units have at least one USB port, making it easy to charge most devices and batteries people take into the wild. Still, many smaller solar chargers will struggle to provide enough power to charge multiple devices simultaneously. The most important thing about a solar panel

charger is its wattage.

Which solar charger is best?

The SolarPowa 28 balances solar charging efficiency and size better than every panel we tested. When you're outside in the sun, having a panel that charges quickly is key. The X-Dragon 20W comes at the lowest price with the most watts of any solar charger we tested.
