[Home , Ampd Energy](#)

We've developed the Ampd Enertainer, an advanced, compact and connected battery energy storage system (ESS) to replace the dirty, noisy and hazardous diesel generators that power the world's construction. Ampd Silo is a flexible, scalable and mobile power solution. Its small footprint packs a big punch to power your unique construction

[The power to work anywhere](#)

Meet the world's first energy system (ESS) for challenging environments. GET the POWER. Enough with the noise and fumes! Use cleaner, quieter power with the ESS designed for the most demanding construction projects. Reduce noise for neighbors while enabling work to continue into sensitive hours with Ampd energy systems. Breathe easy. Get

[The power to work anywhere](#)

You can work in areas with poor ventilation because Ampd energy systems release no harmful CO, CO₂, NO_x, PM or SO₂. "Working with Ampd has been a pleasure, as they are focused on bringing solutions that not only allow us to reduce our environmental impact and bring valuable data insights, but also work for us economically."
