**Energy**

In Cambodia, where energy demand is rapidly rising alongside the population and economy, the need for sustainable and efficient solutions has never been greater. MVA Cambodia, a leading provider of business development services, recognized this opportunity and took a bold step into the renewable energy sector with the completion of the 20MW

**Strategy**

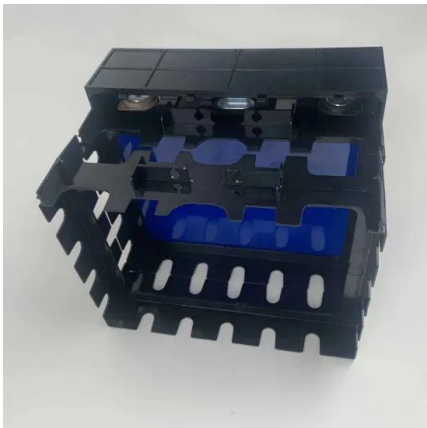

In 2017, we launched "Scale up" to make the company fit for the future and develop it into a Clean Energy Solution Provider, a provider of clean energy solutions. With this programme, we have transferred our expertise from the successful development, project planning and realisation of onshore and offshore wind farms to

other fields.

## PNE and OMNIA sign MoU for the production of green hydrogen ...

The PNE subsidiary is to develop the necessary equipment to combine energy generation from wind and solar with the production of the ammonia. The objective is to produce competitively priced green ammonia in the range of up to 100,000 tonnes per annum, which would result in a saving of 180,000 tonnes per annum of CO<sub>2</sub> emissions.
