Burundi

Publication date: 28 September 2023 Author: African Development Bank (AfDB) Description: GDP growth for Burundi accelerated to 4.0 percent in 2022 from 3.1 percent in 2021 following a recovery from 0.3 percent contraction in 2020, which was largely attributed to the COVID-19 pandemic. The growth in 2022 was driven by investment in public infrastructure projects.

Accelerating Access to Clean and Reliable Electricity in

Burundi

A new World Bank-financed project will support the increase of electricity access in Burundi and help to improve the country's energy sector performance. The project is expected to benefit an estimated 2.4 million people, 1,200 public institutions, and 6,000 small- and medium-sized enterprises and industries with new or improved access to electricity. It is part of the ...
