The St Vincent Electricity Services Limited (VINLEC) has announced plans for the construction of a new power plant and supporting infrastructure on the Northern Grenadines island of Bequia. The state-owned ...

St Vincent and the Grenadines Solar & Battery Storage ...

Supplying St Vincent and the Grenadines with Solar + Storage Technologies Founded in 2008, EcoDirect is a value added distributor that can help Vincentians homeowners, businesses and commercial projects on St. Vincent, Bequia, Union Island, Canouan and throughout St Vincent

and the Grenadines with project design, supply, logistics and technical support.

Home Battery Storage System

We can provide a wide range of power discretes, including silicon-carbide (SiC) and silicon power MOSFETs, diodes and isolated gate drivers. Our portfolio features high-performance STM32 microcontrollers and energy metering ICs to help develop and design high-efficiency and cost-effective home battery storage systems.

Energy Snapshot St Vincent and the Grenadines

St Vincent and the Grenadines This profile provides a snapshot of the energy landscape of St Vincent and the Grenadines--islands between the Caribbean Sea and North Atlantic Ocean, north of Trinidad and Tobago. St Vincent's utility residential rates start at \$0.26 per kilowatt-hour (kWh), which is below the Caribbean regional average of \$0.

Multicell Battery Monitoring and Balancing ICs

Lithium-ion batteries are powering more and more equipment thanks to improvements in capacity density (kWh/Kg) and falling costs. Cell monitoring and balancing ICs play a critical role in the ability of battery management systems (BMS) to maximize battery performance, life, and safety. Balancing and monitoring ICs can address several applications.

Enjoy the convenience of preserving cell phone battery life as tethering is not needed to gain access to mobile data for your other devices.

Battery charger

To ensure consumers' electronic devices remained charged on the go, there is an increasing demand for efficient battery chargers or power banks. Today's intensive use of smartphones, tablets, and other handhelds means that these devices must be recharged often, sometimes several times in a single day. ST provides engineers with the best

Power Bank

It can also supply various-USB-Type-C-powered accessories such as speakers, lights, small fans, and digital camera battery chargers. Power bank units should generally supply between 30 W and 200 W. ST offers comprehensive solutions for power bank applications, from its wide portfolio of STM32 microcontroller families to high precision DC-DC
