company based in Hsinchu, Taiwan, with expertise in designing and producing analog ICs, power discrete/modules, and providing IC integration solutions. PowerX Semiconductor offers a diverse range of IC products and a reliable supply capability, which satisfies the demands and enables success of

Support Customized Product

About us

Producing hydrogen with Germany's power mix from 2018 would lead to CO2 emissions four times higher than those produced with fossil fuels. For Power-to-X production to be truly climate-neutral as well as socially and environmentally beneficial, ambitious sustainability rules must be phased in during market ramp up along the entire value chain
