Prospects of photovoltaic bracket accessories

Overview

This refers to the mounting system where the orientation, angle, etc. remain unchanged after installation. The fixed mounting method directly places the solar photovoltaic modules toward the low latitude area, at a certain angle to the ground, to form a solar photovoltaic array in series and parallel, so as to achieve.

Tracking system is to try to align the sun so that the sun rays receive more sun rays per unit area of the battery panel, thus increasing the power generation. Currently, tracking.
