Pull out the slide rails for the solar panel

Overview

Do stacked panels slide out when parked?

Stacked Panels with a slide out feature when parked. I saw this video on YouTube and my mind went into overdrive. In the video they have a slide out panel for when you're parked, that slides to the rear. Then I thought slide out to the side and drop down at the end. Have panel #1 flat mounted on the roof with a raised stand.

How do you slide out a parked car?

In the video they have a slide out panel for when you're parked, that slides to the rear. Then I thought slide out to the side and drop down at the end. Have panel #1 flat mounted on the roof with a raised stand. Then under it a 2nd panel that slides sideways and then the outer edge can swing down aiming it at the sun on that side.

Which power pole to use for solar panels?

As for the connectors, use Anderson Power Poles. Either the 45A or 75A would be my choice for the solar panels. The 45A will handle 10AWG and 75A will handle 6AWG, for larger you have to step up to the 120A or bigger. Typically an drawer slide works best than the roller wheels because of the design and clearance.

How do you install a solar panel on a roof?

Have panel #1 flat mounted on the roof with a raised stand. Then under it a 2nd panel that slides sideways and then the outer edge can swing down aiming it at the sun on that side. Have a plug that hooks panel #2 in parallel when deployed and is unplugged in transit. A pair of Anderson SB50s would be good for that.

How does a PV module work?

The device uses your existing fiberglass Werner or Louisville extension ladder.

A pulley system is attached to the top of the ladder. A patented module “hook” attaches to the edge of a PV module frame and prevents lateral sliding of the module in the hook. An operator pulls the rope to raise the module.

What is a Rockit solar racking system?

Integrated weep holes, multiple oriented screw bosses, and pre-drilled guides on three sides (South, East, and West) provide a fast, assisted installation. RockIt is the complete rail-less racking system for composition shingle, tile, and metal roofing. RockIt solar mounting system with skirt.

Pull out the slide rails for the solar panel
