### Rimac Technology launches energy storage brand

Rimac Technology has entered the stationary energy storage systems (ESS) market with a new brand, Rimac Energy. The move will see the Croatian firm's EV technology sit alongside stationary energy storage systems providing renewable power generation and aiming for the decarbonisation of our energy networks.

### Rimac Energy unveils groundbreaking new battery storage ...

Rimac Energy has announced that its first SineStack battery energy storage system is ready for deployment at a site in Colchester, UK. The SineStack completed its commissioning phase and is designed to maximise performance, safety, and reliability. Built on a novel electrical architecture, SineStack integrates advanced power conversion technology with ...

### Rimac Energy: Powering the Future with ...

Rimac Energy's unique technology, developed and manufactured at their facilities in Zagreb, Croatia, is designed to support the integration of renewable energy sources into the grid by providing storage and balancing ...

## Rimac Energy: cutting-edge stationary energy storage tech

The Rimac Energy team has been steadily built as a specialised team within Rimac Technology over the last 18 months and now consists of 60 dedicated employees - all of whom currently work on its first generation of stationary ESS ...

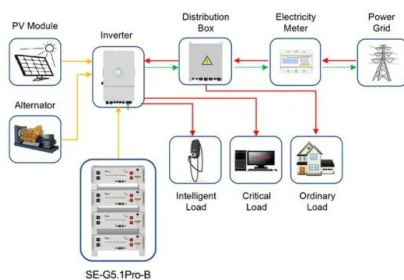

## Rimac brings 'leading battery performance expertise' ...

Image: Rimac Group. Energy-Storage.news' publisher Solar Media will host the inaugural Energy Storage Summit Central Eastern Europe on 26-27 September this year. This event will bring together the region's leading ...

Rimac Energy , 10,403 followers on LinkedIn. Cutting-edge stationary energy storage systems created in Europe. , Pushing boundaries is in our DNA. When we made the world's fastest electric car we changed perceptions of electric vehicles, now we're changing the way we power our planet with next generation stationary Energy Storage Systems (ESS).

Application scenarios of energy storage battery products

## Croatian energy storage outfit Rimac Energy opens UK facility

Rimac Energy is a division of Rimac Technology and part of Zagreb-based electric car maker Rimac Group. The Rimac Energy brand was launched last year to tap into the stationary energy storage systems (ESS) market. In October 2023, Rimac Energy unveiled the SineStack battery energy storage system aimed at

supporting renewables infrastructure.

When we made the world's fastest electric car we changed perceptions of electric vehicles, now we're changing the way we power our planet with next generation stationary Energy Storage Systems (ESS). We've approached energy ...

## Rimac is launching its rival to the Tesla Powerwall and Megapack

Rimac Energy says that it will start with 'commercial & industrial applications' by producing 'utility-scale' battery packs. There's no specific detail on the resulting ESSs, but we're

## Rimac opens innovation and manufacturing facility in Oxfordshire

The energy storage arm of EV supercar technology firm Rimac has opened its UK innovation and manufacturing facility, where it will build the first units of its SineStack BESS platform. Rimac Energy, which launched last year, said yesterday (26 March) that the new 1,850 m2 facility in Witney, Oxfordshire, has opened and will house its UK

We've approached energy ...

## Rimac SineStack

This is Rimac's first move into the stationary energy storage market, their first product is the SineStack. The interesting aspects of this design is the integrated inverter, active balancing and the ability to switch the load on a module basis to extend the working lifetime.

## Rimac se lance dans le stockage d'énergie ...

Rimac ne communique aucune caractéristique de ses ESS (Energy Storage System) et se contente d'évoquer une réduction de 50% des pertes d'efficacité et une réduction de 40% de l'emprise

## Rimac Energy

Join a team dedicated to pioneering the most advanced Battery Energy Storage System technology for a sustainable future. Through innovation, collaboration, and impactful progress, we are developing breakthrough solutions that transform how the world powers itself and redefine energy storage and resilience on a global scale.

## EV-maker Rimac launches energy storage system

It's a first foray beyond EVs for the Croatian electric carmaker, reminiscent of Tesla's move into home energy storage with its Powerwall product. Rimac's ESS battery uses a new electrical architecture, and boasts a 50 per ...

## Rimac Technology enters energy storage systems ...

The firm said the launch of Rimac Energy leverages its expertise in making market-defining electric vehicle technology to create the next generation of stationary energy storage systems (ESS). Rimac Energy has ...

## Rimac Energy's first 'SineStack' BESS ready for deployment in UK

Rimac Energy, a division in Rimac Technology that is renowned for its high-performance automotive technologies, has announced that its first 'SineStack' battery energy storage system (BESS) is commissioned and ready for commercial deployment to a site in Colchester, UK.

## Rimac se lance dans le stockage d'énergie stationnaire

Rimac ne communique aucune caractéristique de ses ESS (Energy Storage System) et se contente d'évoquer une réduction de 50% des pertes d'efficacité et une réduction de 40% de l'emprise

## Introducing Rimac Energy: Cutting-Edge Stationary Energy Storage

Leveraging Rimac's renowned expertise in EV technology, Rimac Energy applies the same engineering philosophy and design know-how to stationary energy storage applications. As a result, Rimac Energy has created a novel battery architecture that reduces efficiency losses by up to 50% whilst decreasing the system footprint by up to 40% compared to

## [Rimac Energy's SineStack Storage System](#)

Rimac Energy, a pioneer in highly integrated battery energy storage and power delivery systems, has announced that its first SineStack is now ready for deployment to a site in Colchester, UK. SineStack incorporates game-changing power conversion technology that is highly integrated both physically and functionally with its battery cells.

## Rimac Energy's Class-Leading SineStack Battery Energy Storage ...

Rimac Energy, a pioneer in highly integrated battery energy storage and power delivery systems, has announced that its first SineStack is now ready for deployment to a site in Colchester, UK.. SineStack incorporates game-changing power conversion technology that is highly integrated both physically and functionally with its battery cells.
