

Solar Energy South Africa

Romania reliable solar systems

Overview

How is Romania supporting rooftop solar?

Romania supports rooftop solar installations through the Casa Verde Fotovoltaice (green PV home) scheme, which is part of the national net metering regime. According to the latest statistics from the International Renewable Energy Agency, Romania had 1.39 GW of solar installed by the end of 2020. Romania is also promoting rooftop PV deployment.

What is Romania doing with solar?

Romania is developing 310 MW of solar at one of its coal power facilities and supporting rooftop PV deployment via the Casa Verde Fotovoltaice (green PV home) scheme for residential solar installations, under the national net metering regime.

Is Romania ready for a green energy turn?

Attila Keresztes, CEO of Astrasun, mentioned that everything is ensured in Romania for a successful green energy turn. The Animal Shelter of the Association for Stray Animals received a solar system through the CSR campaign of ASTRASUN, having the motto “We give energy to animal protection”. ASTRASUN’s solar sheep are ready for a conquest journey!.

Who is Apex Solar Romania?

Apex Solar Romania (Apex Solar Energy SRL) is the Romanian branch of German based solar panel, inverter and storage system manufacturer Apex Solar.
