Rowen energy Lebanon

[About Rowan Energy](#)

The Rowan Energy blockchain aims to become the transactional medium for this network with the RWN coin powering that medium as the designated currency of exchange. The energy market is already decentralising itself, and we're here to be the rising tide that lifts all boats and elevates decentralised energy to its full potential.

Rowan Energy was founded by David Duckworth after many years of experience in the energy industry. He saw the flaws of the current system, of established monopoly players, and the failings of them to support home renewable energy. In his words, "Am I the only one who thinks selling your energy to the grid for 5p per kWh and then buying back in

Rowan Energy

Rowan Energy's Real-World Impact Rowan Energy's initiatives already have tangible, measurable impacts on reducing carbon emissions and promoting renewable energy usage. For instance, Rowan currently manages over 4 MW of solar capacity, with plans to significantly expand this figure by the end of 2024.
