Réunion green energy agency

Missions GREEN TECH

Green Tech's missions: Support for energy demand management (EDM), Instrumented energy audit, Photovoltaic production for self-consumption and resale, Tertiary sector decree: assistance with the Tertiary Sector Eco Efficiency Scheme (DEET).

Transforming small-island power systems

But local utilities must also ensure reliable supply amid the shift to variable sources, such as solar and wind energy. This guide from the International Renewable Energy Agency (IRENA) can assist in decision making and help to carry out successful technical planning studies on solar and wind integration into SIDS power systems.

[Renewable energy statistics 2024](#)

The International Renewable Energy Agency (IRENA) produces comprehensive, reliable datasets on renewable energy capacity and use worldwide. Renewable energy statistics 2024 provides datasets on power-generation capacity for 2014-2023, actual power generation for 2014-2022 and renewable energy balances for over 150 countries and areas for 2021-2022.

Reunion, One Island's Quest For Energy Self-Sufficiency

"Our best chance is to have a diversified electric mix," says Philippe Beutin, regional branch chief of the French Environment and Energy Management Agency (ADEME). But the rise of green energy is hampered by Reunion's geography and climate. The French island lies on the path of tropical cyclones, meaning wind turbines must either be tied up

Home

Our aim is to reduce energy consumption and promote sustainability locally, thus contributing to national targets. Energy Agency Renewables Ltd is a not for profit subsidiary company of the Energy Agency that has developed the Nethermills Hydro Scheme on the River Ayr. This is generating green electricity for Ayrshire College, helping to reduce
