Serial numbers of all PV inverters

Overview

The serial number, usually ten digits long, is indicated on the type label on the front cover of the inverter. Alternatively, the serial number can be read off via a data logger: How to identify the manufacturing date of SolarEdge inverters?

This document describes how to identify the manufacturing date of SolarEdge inverters. The manufacture date of SolarEdge inverters can be identified by decoding the four left hand digits of the serial number of the product. The serial number of the product, can be found on the information label attached to the product.

How do I read the serial number of my inverter?

Alternatively, the serial number can be read off via a data logger: If you have an inverter with one serial number for the lower Communication Unit and a different number for the upper Power Unit, register your product using the serial number shown on the type tag of the CU (lower enclosure). Log in to Sunny Portal.

How do I register an inverter with a different serial number?

If you have an inverter with one serial number for the lower Communication Unit and a different number for the upper Power Unit, register your product using the serial number shown on the type tag of the CU (lower enclosure). Log in to Sunny Portal. Select " Configuration > Device overview".

What are the different types of PV inverters?

A5---3kW single MPPT single phase Grid-tie PV inverter Temporary Mode number is A8 A6---3.6kW single MPPT single phase Grid-tie PV inverter
A7---2.5kW dual MPPT single phase Grid-tie PV inverter (Temporary Models
A8---3kW dual MPPT single phase Grid-tie PV inverter A9---3.6kW dual MPPT single phase Grid-tie PV inverter .

How do I register a solar inverter?

In the main menu select " PV plant > Registration ". Select the name of the inverter you wish to obtain device information for. After selection, confirm all menu items with " Enter ". Launch the user interface of the Sunny WebBox. The plant tree on the left displays all inverters in your plant and their corresponding serial numbers.

How long is a SolarEdge inverter warranty valid?

SolarEdge's inverter warranty is extendable up to 20 or 25 years, depending on the inverter model. To check the inverter warranty expiration date, please visit the following link and enter your inverter serial number. This extension is available for a one-time payment fee and must be purchased within 24 months of inverter shipment from SolarEdge.

Serial numbers of all PV inverters

S6-GR1P (7-8)K2_Solis Single Phase Inverters_Solar ...

S6-GR1P(7-8)K2 series inverter is designed for residential PV plants. The maximum input current per string is 14A, which is compatible with high-efficiency modules and bi-facial modules and adopt two MPPT access, more flexible and ...

How to check inverter warranty - Help Centre General

2. Query up to 20 Serial numbers at a time. Separate with a comma (,) or spacere(), or turn (enter). 3. Enter Captcha Code. 4. Click the Search button to check the serial numbers. Available information: Inverter model; Warranty
