Non-Pressure Solar Water Heater

The Solar Water heater tank is a non-pressurized tank, and has an opening to the ambient atmosphere. Solar water heater tank should always be filled with water to avoid damage caused by dry high temperature working conditions. The stainless steel our use belong to food grade, and SUS 304 & SUS 316 have better corrosion resistance.

Sawan Solar Systems

In 2005, Mr. Elie Sawan established Sawan Solar Systems in a small branch in zgharta North Lebanon, starting its activities in the solar water heaters distribution and installation. SAWAN, has grown to be the largest Importer of Solar Water Heating Systems in Lebanon with thousands of installations per year and five branches in the Lebanese market.
