Image: Jon Wornham. The Isle of Man is exploring the possibility of opening up a tender for 20MW of onshore renewable energy as part of its plans for 75%

Plans submitted for Isle of Man's first solar energy farm

Plans have been submitted for the Isle of Man's first solar energy farm. The proposed 84-acre development in the south of the island would generate enough electricity to power nearly 8,000 homes

Cubico JV introduces plans for Isle of Man solar farm

Proposals for the very first utility-scale solar farm on the Isle of Man have been released by designer Peel Cubico Renewables (PCR). The 26MW Billown Solar Farm in Malew, near Castletown, would certainly produce enough power to fulfill more than 5% of the Isle of Man's power demand, when functional in 2024.

Renewable Solutions by Manx Solar Electrical

Solar Panels are a very efficient way to harvest the Isle of Man's solar potential and turn it into power for your home or business. The Isle of Man produces more solar than you would think, even on an overcast day, we are still reaping the rewards of free electricity! A small solar array of 8 panels can produce 3630kwhrs of electricity and

[EMS - Caring, Professional, Efficient](#)

EMS came to our rescue when our boiler decided to start leaking water through the ceiling late one night! With the boiler being an old gal and pretty costly to fix we asked EMS for a quote on a new boiler and decided to add in some new

radiators and opted for the funky tech extras to control our heating from our phones!
