Solar lights do not have a fixed bracket

Overview

How do you fix a solar light not working?

To fix solar lights not working, check and remove the battery pull tab, replace or deep charge the batteries, repair any damaged wiring, clean the solar panels, and ensure they're positioned in direct sunlight. [How Do You Reset a Solar Light?](#)

Why do outdoor solar lights stop working?

One of the most common reasons why outdoor solar lights stop working is because the battery is dead. This can happen if the lights haven't been used for a while or if they've been exposed to extreme temperatures. To fix this problem, you can simply replace the battery with a new one.

Why is my solar panel not working at night?

This can also happen if there are nearby light sources which make the environment overly-bright at night. By shading your solar panel, you force your solar light to recognize that lighting levels are low and that it needs to give off light, allowing your light to start working again. 2. Check Your Batteries.

Do solar lights have an ON/OFF switch?

Strong winds can put undue pressure on the cable causing damage that can be hard to find and even harder to fix. This is a classic that we had to include; we've even had electrical engineers overlook this one. Not all solar lights have an on/off switch but for those that do make sure it's set to on.

Why is my solar light not working?

One of the most common reasons why your solar light isn't working is the wire between the solar panel and the battery. This wire is responsible for

transferring the generated electricity from the solar panel to the solar battery — charging it in the process. If this wire is broken, then your batteries won't charge no matter what you do.

Can a solar light get broken?

Solar lights are a great way to light up your yard or any other space while reducing your costs. Like every other technological device, they can get broken, damaged, or simply just malfunction. Hopefully, our tips have helped you diagnose and fix your solar light in no time!
