Apollo Power

In 2023, Apollo Power established a factory for mass-producing solar panels. This 10,000-square-meter facility, located in the Mevo Carmel Science and Industry Park in Yokneam in northern Israel, was built at a cost of NIS 100 million (\$30 million) and is designed to increase the production of flexible solar panels.

SolarDuck

At SolarDuck, we are pioneering the future of renewable energy by harnessing the power of

offshore floating solar technology. In many regions, solar energy stands out as the most competitive renewable energy source. However, as urban areas expand and global populations grow, the availability of space for solar installations on land is diminishing.

Solar power in Israel

Solar potential of Israel
 Israel renewable electricity production by source. In 1949, the prime minister, David Ben-Gurion, offered Harry Zvi Tabor a job on the 'physics and engineering desk' of the Research Council of Israel, which he accepted. He created an Israeli national laboratory and created standards amongst the different measurements in use in the country, primarily British, ...
