A growing industry - Solar is an expanding industry, with new technology and innovation leading to better products at lower costs.

Who has the best solar packages in NZ? : r/newzealand

I note you are proposing to install a battery. This has its advantages, as the worst thing you can do with solar PV is export electricity to the grid, as you'll (correctly) only get paid a pittance for it. So using 100% of the solar generated power and never exporting is a sound financial strategy.

[Solar energy in New Zealand](#)

Utility or grid-scale solar farms are set to play a key role in the electrification of New Zealand's economy. Although few farms are currently operating, grid-scale solar accounts for approximately half of the new generation interest in Transpower's pipeline and makes up

the largest share of advanced projects.
