We can harness that energy to create a sustainable future in Vanuatu and the world. eTech Solar is accelerating the adoption of quality yet affordable solar technology across Vanuatu to conserve our environment and provide an environmentally friendly and sustainable power supply.

How can Vanuatu benefit from solar power?

With this project, 17,000 households throughout Vanuatu will be supported to access non grid, renewable electricity through solar. With low population densities and large distances between communities, a key challenge for the project has been providing access to electricity in a way that is cost effective and efficient.

How many islands are in Vanuatu?

Vanuatu is an archipelago consisting of 82 islands, with 65 inhabited. With the remoteness of the islands and limited access to centralised utilities, PCS also offers self supporting products suitable for the Vanuatu environment, including solar showers, hand spears, personal solar lighting and Lifestraw water filters.
