Solar panel systems Turks and Caicos Islands

Overview

Who makes solar panels in Turkey?

1. CW Energy Founded in 2010, CW Energy is a Turkish company that operates in the photovoltaic energy production sector and services. With an annual production capacity of 1.3 GW, it is one of the giant solar panel manufacturing companies in Turkey and Europe.

Who provides electricity in Turks and Caicos?

Together, both companies provide electric power in Turks and Caicos to over 15,000 customers and are regarded as one of the most reliable electricity providers in the Caribbean. FortisTCl offers customized energy audits to help customers achieve greater energy efficiency and savings.

Can Turks and Caicos use solar power?

The Turks and Caicos Government and Fortis TCl are currently reviewing the electricity legislation to enable Turks and Caicos residents to use the solar power they produce to offset their power consumption (rather than sell everything back to Fortis at their pre-agreed rate).
